

## **ADVANCED BASIC LESSONS**

By: Charles Lowry

To load the program, insert the disk in the drive, label facing up, and type:

LOAD"1",8.

The following menu will appear on your screen:

1. Disk Accessing Techniques
2. More Disk Accessing
3. Graphics Management
4. More Graphics
5. Sound Programming
6. Using Machine Language Routines from BASIC
- Q. Quit Programming

By pressing the number (1-6) or letter (Q) on the keyboard you will activate the lesson or quit. While in program operation, pressing the **F1** returns you to the previous page. To return to the main menu, press the **F3**. Other instructions during the lesson will be provided to help you complete your lessons.
